Holiday Gift Guide for the Hospitality Industry

November 23, 2020

Like everything else, the holidays may look a little different this year. **COVID-19** has tested our industry greatly this year, and that's why it's more important than ever to spread some holiday cheer to your favorite industry insider (or yourself!).

Take a look at the gift guide for the hospitality industry (extended from the version running in our October/November issue) below for some gift ideas for the bartender, wait staff, or bar owner in your life!

Magellan Gin

Named after the explorer, **Magellan Gin** is distilled three times in small batches using a column still, and then redistilled for a fourth time using a small artisanal copper pot still, where the botanicals (all 11 of them!) are vapor infused. Then, the master distiller selects the "heart" of Magellan Gin, which is the moment when the **gin** is absolutely perfect. This fresh distillation process captures the intricate and complex flavors of the fresh botanicals. For the finishing touch, Magellan is infused with natural iris root and flower, which creates the crisp taste and beautiful blue color.
